

SCREAMER

*The Cusack Screamer is our take on a classic overdrive.
Enhancements include lower noise, increased clarity,
more gain, and topped off with a clipping selector.*

Drive	Adjusts the amount of gain and overdrive.
Tone	Controls the tonal balance. Left is a bassier tone, right is brighter.
Level	Sets the output level.
Toggle Switch	Selects the clipping diodes. Left - classic silicon diodes. Middle - LED for a louder, punchier, brighter overdrive. Right - Schottky diodes for a crushed, compressed tone.
Power	Standard 9V DC negative center. Safe to run at 18V DC. ~6 mA Current Draw
